

Math2: Final Assignment.

Aleix Cardona Zuecos
Josep Casanovas Vidal

To run the application open the Rotate.m file and click on 'Run' on matlab, a window with the plot will be opened. Click on connect and now connect your mobile, after that click again on connect and rotate your mobile and see how the cube rotates just like the cube does. You can also see some rotation parametrizations.

All test for methods are done in 'Test.m' file.
